

SHIP YOUR REPTILES **TO CANADA!**

American sellers can ship to their Canadian clients with absolutely no hassle by using our brokerage services. We will handle absolutely **ALL** the paperwork involved; US Fish & Wildlife inspections; Canada Customs clearance and finally shipping the animals to Canadian recipients from our Toronto office. We will pay all the government agencies their fees on our client's behalf, furthermore providing a hassle free experience.

American sellers simply ship animals to our Lewiston, NY office (via FedEx Priority Overnight) just like they would ship to any other U.S. state where their clients reside in. We'd pick up the animals at our NY office and go through the border process to provide legal exit and entry for the animals.

When shipping to our NY office, use the reliable services of **Reptiles2You.com** and we'll provide you with our **10% discount code** before your ship date. This is through our North American Affiliation with them.

Our Lewiston, NY office's zip code is: **14092, if you wish to get a US shipping rate from the seller.

**Each additional US seller in addition to the first one would be \$60 extra as we'd have to fill out more paperwork and co-ordinate everything with another seller which involves more time.

Here is the pricing structure for:

CITES Appendix II

(all pythons, boas, monitors; dart & red eye tree frogs; uroplatus and some others)

Up to 2 Animals:

\$500 base export fee

- + US Shipping Fee (average of \$50-105USD)
- + Canadian Shipping Fee (average of \$60-100 or FREE Toronto area pick up)
- + 5% GST Tax (on the value of the animals that we pay to Canada Customs on your behalf)

3 to Unlimited Animals:

- + Canadian Shipping Fee (average of \$60-100 or FREE Toronto area pick up)

****the above is in Canadian currency**

Information:

CITES species will require a US CITES export permit before they can be transported across international borders as well as are required to go through wildlife inspections and clear Canada Customs. We would fill out all necessary government paperwork as well as go through the border inspection process so that neither the American seller nor Canadian buyer have to. We provide a complete hassle free experience. Our clients never have to deal with any government agency.

The above pricing structure can be for as **many animals as you wish**, as long as they're coming from the **same US seller**. For additional US sellers, please add an additional \$350 for the base export fee as we'd have to apply for an additional permit and fill out more paperwork.

We would take 2 separate payments. The first payment would be \$350 and then 1.5-2 months later when the permit is issued, the remaining amount would be due. At that time we would set a firm ship date.
